

SANDRA RAJ

Data & Software Engineer (Full Stack, Python, Analytics)

+971589200302 | sandraraj2003@gmail.com | <https://github.com/Sandra-Raj> | Sharjah, UAE

WORK EXPERIENCE

Data Analyst Intern

Aries Marine Company 04/2026 -

? Optimized data-driven dashboards using PHP and Python (FastAPI/Pandas), implementing dynamic multi-parameter sorting and automated email reporting.

Full Stack Developer Intern

Minerwa Aluminium and Glass 07/2025 ? 09/2025

? Built a full-stack product management system with secure admin CRUD and database.

Security Analyst Intern

InfoZeus Technologies 06/2024 ? 08/2024

? Performed web app penetration testing and automated security tasks using Python.

Front End Developer Intern

SunTech 05/2023 ? 08/2023

? Developed an Angular-based e-learning platform in a 7-member IT team.

Web Developer Intern

Aries Marine Company 06/2022 ? 07/2022

? Built MVC web modules, analyzed data with MySQL, and developed RPA workflows.

PROJECTS

Individualized Learning System 09/2024 ? 05/2025

? Designed database schemas to track student progress, roles, and activity logs

? Worked with structured datasets for real-time progress tracking and analytics

? Implemented backend logic for collecting and managing user performance data

? Supported data-driven decision-making for personalized learning paths

? Project Link: <https://github.com/Sandra-Raj/ILS.git>

Election Website 01/2024 ? 05/2024

? Managed voting and user datasets using backend logic and database queries

? Ensured data accuracy and integrity for ballots and election results

? Designed workflows for aggregating and displaying election data

? Project Link: <https://github.com/RIT-iSchool/election-project-two06.git>

EDUCATION

Executive Post Graduate Certification in Data Science & AI

IIT Roorkee 2025 ?

Computing and Information Technology

Rochester Institute of Technology, Dubai 2021 ? 2025

SKILLS

Backend & APIs: Node.js, Express, REST APIs

Frontend: React, Angular, HTML, CSS, JavaScript, PHP

Data & Analytics: Python, Pandas, NumPy, SQL, Data Cleaning, Machine Learning Algorithms
Platforms & Tools: GitHub, Visual Studio
